MOBILE REVERSE OSMOSIS ULTRA PURE, SPOT FREE WATER

MOBILE PRO MINI

Spot Zero WaterPurifier

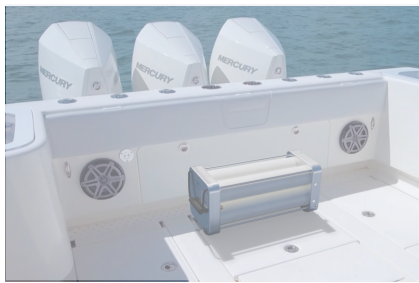

Spot Zero's Mobile Pro Mini is designed to fill the onboard freshwater tank for boats up to 14-meters, giving them access to on-the-go high-quality, spot-free water widely known in the larger boat market. The Mobile Pro Mini is the most compact, high-performance Mobile WaterPurifier for ultra-pure spot free onboard water. Spot Zero's Mobile WaterPurifiers remove up to 99% of waterborne contaminants, from any dockside water source. Say goodbye to chamois drying, and water spots once and for all!

DOCK WATER

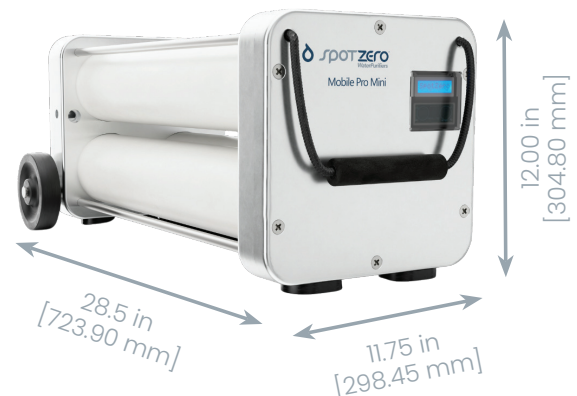

230V/50HZ

KEY BENEFITS

- Non-marking, non-slip rubber feet
- Quick release wheels and marine-grade polyester handles for easy portability
- Corrosion resistant anodized aluminum alloy 6061-T6 uni-body
- Advanced system monitoring and SMART LED display
- Ultra-pure water for rinsing boat and equipment
- Eliminate water spots and calcium build-up
- Extend wax and paint life
